Professional Summary

Versatile Full Stack Software Engineer with 1+ year of professional experience delivering end-to-end web applications using Python, FastAPI, ReactJS, and NodeJS. Experienced in designing scalable backend APIs, integrating AI/GenAI capabilities into production systems, and collaborating across cross-functional teams in agile environments. Skilled in Docker, RabbitMQ, and modern frontend frameworks including Redux and Tailwind CSS.

Skills

Generative AI: LLMs, RAG, LangChain, CrewAI, AG2 (AutoGen), Vector Stores, Prompt Engineering
Backend Development: Python, FastAPI, Django, REST APIs, Express.js, Node.js
Databases: PostgreSQL, MongoDB, MySQL
Front-End / UI: Streamlit, React.js, Redux, JavaScript, Tailwind CSS, HTML, CSS
Tools & Practices: Docker, Git, UNIX Shell (Basic)
Soft Skills: Team Player, Fast Learner, Detail-Oriented

Experience

Nuvepro Technologies **June 2024 – Present**
Software Engineering *Bangalore, India*

Project 1: Gradient (AI Evals)

- Implemented AI evaluation workflows using **DeepEval** to assess prompts and agents across multiple scenarios.
- Measured key metrics including **Hallucination, Answer Relevancy, Toxicity, Bias, and Custom Metrics**.
- Built and integrated evaluation services with a **Fast-API backend** for scalable execution.
- Collaborated with teams using **Crew-AI** and **Next.js (TypeScript)** to improve AI response quality and reliability.

Project 2: Project Review (Code Review)

- Built an AI-driven code review system to evaluate submissions on **Code Quality, Security, Consistency, and Relevancy**
- Designed **AG2 (Auto-Gen) agent-based architecture**, with each agent responsible for a specific evaluation metric.
- Developed and exposed evaluation workflows through **APIs** for seamless integration using **Fast-API**.
- Generated detailed AI-powered reports with **actionable feedback and improvement suggestions**.

Codsoft **Oct 2023 – Nov 2023**
Python Developer (Intern) *Remote*

- Successfully completed 3 out of 5 assigned tasks within a one-month internship program.
- Developed a To-Do List Calculator application using Python Tkinter.
- Created a Password Generator using Tkinter and Python's Random library

Integrano Technologies Pvt. Ltd. **Jan 2022 – March 2022**
UI Designer *Pune, India*

- Converted **WordPress pages into responsive HTML/CSS** layouts following design guidelines.
- Assisted senior developers in building **UI components using HTML, CSS, and JavaScript**.
- Worked on **UI styling, layout fixes, and minor JavaScript enhancements** for web pages.
- Collaborated in a team environment while learning industry-standard UI development practices.

Education

Prepleaf By Masai School **Feb 2023 - March 2025**
Career Accelerator Program *Remote*

Envision Computer Training Institute **Sept 2021 - Dec 2021**
Web Designer *Remote*

Trinity Polytechnic, Pune **August 2016 - June 2020**
Diploma In Computer Engineering *Pune, India*
